

Change of ownership at Hesley Group

Press release

London, 8 October 2023

UK adult education and residential homes provider, Hesley Group is under new ownership, following its acquisition by Blandford Capital. The UK-based private investment office has today completed the purchase of the group from Antin Infrastructure Partners.

The Hesley Group provides specialist care, support, and education for adults with complex care needs, including behaviours that challenge and learning disabilities, often in association with autism. It operates residential homes and supported living schemes.

Blandford Capital, which has already invested in the UK health sector, provides financial and operational support to management teams to help businesses to grow and to achieve their full potential.

Blandford Capital has a strong understanding of the importance of the care sector and the difference it can make to peoples' lives. This investment will provide financial support and expertise to allow the Hesley Group build further on its strong foundations, providing the very best service to people in its care. The change in ownership will have no impact on the day-to-day running of the services.

Neville Kahn, a founding partner of Blandford Capital, said:

"We are pleased to bring our expertise to support the growth of Hesley Group. We are looking forward to working with the management at Hesley, which is a leading provider of specialist care and education for adults with complex needs."
